Pavicastrum

- ± View of crater interior  
# taken during period of  
relatively little activity.  
It is impossible to  
find core even  
during moderate  
activity. Noise at  
crater rim is  
deafening.

Early in May, lava  
reached outskirts of  
Amherst & just missed  
first house. There it  
paused for a few  
months.
